

MANOJ.K

 Bengaluru, India  moogle.2416@gmail.com  in.linkedin.com/in/manoj-k-8883b4381

SUMMARY

Final-year Bachelor of Computer Applications (BCA) student at Bangalore University specializing in Full-Stack Development, with hands-on knowledge of Python, Java, Linux, Kali Linux, HTML, CSS, JavaScript, Node.js, React (Vite), PHP, MySQL, and MongoDB. Strong interest in cybersecurity, cloud security, SOC operations, penetration testing, and DevOps, with a foundation in operating systems, web technologies, databases, and software development. Seeking an entry-level opportunity to apply technical skills, strengthen security and cloud expertise, and contribute to real-world IT and cybersecurity environments.

PROJECTS

UIDAI DATA HACKTHON [HACKATHON PROJECT - 2026]

UIDAI · github.com/krish24-prog/aadhaar-biometric-policy-analytics

- This project presents a policy intelligence dashboard and decision support tool built on Aadhaar biometric update data to support data-driven governance and service optimization.
- This analysis identifies regional demand hotspots, age-based update patterns, and inter-state inequalities, enabling policymakers to make informed decisions on Aadhaar infrastructure planning.

FINANCE MANAGEMENT [HACKATHON PROJECT - 2026]

DAYANANDA SAGAR COLLEGE · github.com/krish24-prog/HACKATHON.git

- Problem Statement Decision Fatigue in Family Finance Households often lack a single intelligent platform that simplifies financial decisions because expenses are scattered across apps, subscriptions go unnoticed, shared expenses become confusing, savings goals lose consistency, and decisions become overwhelming.

QR-SHIELD [HACKATHON PROJECT - 2025]

Hackathon · github.com/manoj-24-24/QR-SHIELD-.git

- Developed a security tool designed to protect users from malicious QR codes by scanning and preventing unauthorized redirections.
- Recognized as a winning project across multiple hackathons.

Portfolio

Personal Project · portfolio-wu9r.onrender.com

- Personal portfolio website showcasing technical projects, full-stack development work, and cybersecurity skills.

EDUCATION

BCA

Bangalore University · Bangalore · 2024-2027

SKILLS

Web Programming Skills: HTML, CSS, JS, PHP, Node.js, MySQL, MongoDB

Programming Skills: Python, Java, DSA in C, C

Cybersecurity and Cloud Skills: OS (Linux, Kali Linux), Nmap, Wireshark, Networking using Cisco Packet Tracer, AWS, CTF Solver
